Good morning Unified Command,

Per our discussions and the transmittal of this signed Transition Plan, Federal Unified Command is stood down and Long-Term Remediation and Consequence Management will be overseen by TCEQ.

EPA expects that a final report with all response data, plans, photographs, etc will be provided by March 2, 2020.

As discussed, please notify EPA when the three tanks (33, 35, and 36) are secured and in the event any new situations arise.

Any questions, please don't hesitate.

Very Respectfully,
Adam
